Fotoklub Ljubljana

Fotoklub Ljubljana has, since its inception, cultivated a strong dialogue between master photographers and emerging voices. This continuity between generations forms a visible and lasting visual legacy within the club's practice.

The exhibition My Ljubljana is built upon this very principle. It unfolds as a two-layered structure:

On one side, a selection of predominantly analog works by master photographers offers glimpses into classical visual culture. These images appear at times nostalgic and familiar, at times darker, introspective, and quietly provocative.

On the other side, contemporary interpretations of Ljubljana reflect the perspectives of newer generations. These works are not confined to digital practices alone but encompass diverse techniques and approaches. Together, these two bodies of work enter into a dialogue, revealing a layered and evolving portrait of what is still regarded as "one of the most beautiful cities in the world."

The photographs in this exhibition echo an inner inquiry shared by each artist:

Where do I live?

What is the pulse of my city?

How does it breathe?

And how do I experience its soul?

The exhibition presents a curated selection of approximately 50 photographs.
